

C++ Developer

- Industry leader
- Informal team environment and flexible working arrangements
- Permanent role offering competitive package

Work on best-of-breed technology for the Oil and Gas sector in Adelaide's CBD? – Absolutely! Join a team with genuine passion for our solutions.

Petrosys has been providing geotechnical and data management software and solutions for the oil and gas exploration sector for over 25 years. With a Head Office in Adelaide and regional offices in Perth, Europe, North America and Asia, our global client base represents the “Who's Who” of the industry.

To assist our continuous product enhancement, we're seeking an experienced C++ Developer to join our team on a permanent basis.

Key Attributes:

- C++ skills using modern C++ techniques and effective use of the STL and Boost libraries
- 5+ years experience using C++ in a commercial environment
- Exposure to Oil & Gas or Mapping/GIS industries would be ideal

An attractive salary package, commensurate with experience is available.

If you'd like to develop your skills working with a small but highly experienced development team, this role will appeal to you. Petrosys offers an informal working environment with good links to public transport and flexible working arrangements. You will work on cutting-edge projects and be part of a team of true, technical professionals with a genuine passion for the project. Our tools manage issue tracking, configuration management, scheduling, code reviews, documentation and continuous builds and testing aimed at achieving best practice.

Applications close Monday, 27 February and should be forwarded to the Operations Manager at jobs@petrosys.com.au. Queries relating to this opportunity can also be directed to the Operations Manager.
